## **STUDENT FINANCIAL ASSISTANCE**

At present, students enrolling in ACNM Programs of Study are NOT eligible to make application for Title IV Student Financial Assistance.

ACNM offers a generous tuition donation scholarship program for all new and continuing ACNM students. This program may relieve up to 90% of full regular tuition, not including housing, meals, and materials fees. Details are available at: <http://thaiyogacenter.com/ctp-scholarship-program>. The ACNM Donation Tuition Scholarship program is reviewed regularly and subject to withdrawal or change at any time without notice. *All tuition scholarships are offered to students on a conditional basis and may be withdrawn for any reason, without notice, for any breach of NAIC RPG's, including actions which cause or bring harm to NAIC or it's representatives. If the rescinding of the tuition scholarship results in a balance due for tuition the balance must be paid in full before any further courses are accessed or completed.* No graduation can occur with arrears donation balance for any tuition due. The individual interested in making application for student financial Assistance is urged to read the United States Office of Education publication The Student Guide and to be familiar with its contents. The Student Guide is available from the school and also from public libraries.

All student financial assistance programs in which ACNM participates are administered without regard to race, color, creed, religion, national origin, sex, or handicapping condition. The student is not charged for applying for Title IV student financial assistance. All individuals applying for financial assistance must make payment arrangements with the school if loan assistance is approved after forty [40] hours of attendance. If satisfactory arrangements are not made, the student may be unable to continue his/her education.

## **DEBT MANAGEMENT**

Student and parent borrowers must sign a promissory note (enrollment agreement) agreeing to repay any loans. This promissory note is a legally binding document. Any student or parent not repaying a loan as agreed to in the promissory note is considered a default. In cases of default, the lender and State/Federal government may take actions to recover the money, with the student or parent being responsible for any recovery costs.

Default is a serious matter. Students and parents are reminded that default may harm the individual's future credit rating. If an individual is in default and decides to continue his/her education, the student is not eligible for federal aid. A default may also affect the ability of future students to secure a loan. The Internal Revenue Service may also withhold income tax refunds until loans are repaid.
